14. A quote worth noting;

<http://blogs.hbr.org/innovations-in-education/2011/03/the-innovation-mismatch-smart.html>

Joanne Weiss (*Joanne Weiss is the Chief of Staff to U.S. Secretary of Education Arne Duncan and previously led the Obama administration's Race to the Top program.*) said,

"The development of common standards and shared assessments radically alters the market for innovation in curriculum development, professional development, and formative assessments. Previously, these markets operated on a state-by-state basis, and often on a district-by-district basis. But the adoption of common standards and shared assessments means that education entrepreneurs will enjoy national markets where the best products can be taken to scale."
